Hope Lives Here

City of Hope Orange County is speeding tomorrow's discoveries to the people who need them today. Right here, in our community, we are developing a regional network of highly specialized cancer care – comprised of City of Hope Newport Beach and additional practice sites – that will surround an 11-acre cancer campus of the future in Irvine. Our vision is to transform the delivery of cancer care, delivering state-of-the-art cancer prevention, early detection, pioneering treatment, clinical trials, personalized therapies and patient-focused programs, all closer to home.

Meet The Science That's Fighting Cancer

“Each cancer is unique, which is why we assembled a roster of outstanding researchers and physicians who provide targeted treatments for specific cancer diagnoses.”

Ravi Salgia, M.D., Ph.D.

City of Hope Orange County is home to nationally renown clinician-scientists who are transforming laboratory breakthroughs into treatments to offer the best hope for patients. Due to their expertise in caring for immunocompromised patients, they are among the most prepared providers in the country to help cancer patients through this COVID-19 crisis.

It's Safe To Return For Care!

Don't let COVID-19 stop you from keeping up cancer screenings and medical appointments.

City of Hope follows the latest guidance from public health authorities to protect our patients, caregivers and staff from COVID-19. We are working hard to keep everyone safe, now and whenever you are scheduled to see us.

To make an appointment call 949-763-2204
